Utility Intervention Unit
REQUEST FOR QUOTATION (“RFQ”) #16-UIU-08**

GENERAL INFORMATION

The New York Department of State (“DOS”), Consumer Protection Division, Utility Intervention Unit (“UIU”), through this competitive Request for Quotation (“RFQ”), is seeking a Consultant experienced in investor-owned public utility regulatory cost of service studies, to assist the UIU in analyzing and commenting on Electric Cost of Service aspects of the Consolidated Edison of New York, Inc. (“Con Edison” or “the Company”) electric rate case (16-E-0060) filed with the New York Department of Public Service (“DPS”) on January 29, 2016. The UIU’s foremost objective in this case is ensuring the protection of New York residential and small commercial consumers’ interests. Successful bidders will need to review the Company’s electric case in preparation for submitting a Proposal Package. Strategy proposed as part of the Proposal Package Work Plan will also be considered as part of the award process.

The Consultant should have a minimum of ten (10) years of experience testifying on public utility rate case matters. The Consultant must also be able to coordinate and incorporate recommendations from multiple witnesses testifying on behalf of consumers’ groups, small commercial consumers, and others in order to build advocacy consensus around the Company’s electric rate case.

Submissions responsive to this RFQ must include a completed Proposal Package, including a Work Plan and completed Quotation Sheets, the forms for which are attached. The content required for each document is described below. The failure of the Consultant to provide any of the required documents may result in rejection of the Consultant’s submission from consideration for this RFQ.

SCOPE OF WORK

The Consultant will agree to review a select number of the Company’s electric panels, witness testimony, and/or exhibits, and will submit to the UIU its own independent analysis and review of the appropriateness of the Company’s claims therein. For the purposes of this RFQ, the panels and witnesses of interest to the UIU include at a minimum: (1) Demand Analysis and Cost of Service (“DAC”) Panel and (2) Policy Panel - Electric. Based on this

analysis, the Consultant will, as necessary, prepare written initial testimony and rebuttal testimony. The Consultant may also be required to participate in settlement negotiations pertaining to: (1) the Company’s electric Embedded Cost of Service (“ECOS”) study and Marginal Cost of Service (“MCOS”) analysis and (2) related relevant proposals from other parties in the proceeding. The Consultant is expected to focus on specific cost of service methodologies that carry the highest potential impact on customer class-specific revenue distribution and customer charges, with the primary focus on impacts to residential consumers and small commercial consumers.

The Consultant will be expected to monitor the Company’s rate case activities and activities of other parties, and prepare filing responses as necessary. In addition, the Consultant is expected to prepare written information requests to the Company, DPS Staff, and other party members during the course of the rate cases as well as answer relevant information requests directed to the UIU. This Consultant will also be expected to consider other parties’ interests and develop responsive strategies to counter other parties’ positions concerning cost of service and other relevant issues that are inconsistent with the public interest or UIU goals. The Consultant should be prepared to devote sufficient resources to meet all procedural schedules, timelines, or deadlines directed by the UIU Director, DPS Administrative Law Judges (“ALJs”), or the New York Public Service Commission (“PSC”).

The Proposal Package must include the following sections, as described below: (1) Consultant Background; (2) Scope of Work; and (3) Quotation Sheets.

1. **Consultant Background**

The Consultant Background must include the following items. The combined length of items (a) and (b) may be no more than ten (10) pages, and the length of item (c) may be no more than eight (8) pages.

general understanding of the Company’s electric rate case with an emphasis on specific cost of service methodologies that carry the highest potential impact on rates, particularly rate increases to residential consumers and small (non-residential) commercial customers.

- b. The Consultant and the individual(s) who would be assigned to work on the Company’s rate cases, including their name(s), position(s), function(s), and role(s). Include resumes listing total years of experience with public utility case work.
- c. As a separate attachment to the Proposal, please provide: A three (3) year listing of the Consultant’s utility rate case work. In this list, please demonstrate whether and how the Consultant met each client’s needs and expectations in each rate case. This list must also highlight and explain any instances where the client’s needs and/or expectations, and the Consultant’s work on the client’s behalf, may have been in tension with the UIU’s primary objective of protecting residential and small commercial consumers. In this section, also identify any past or ongoing proceedings or matters that could potentially represent a conflict of interest that may affect the Consultant’s ability to work with the UIU on the Company’s rate cases. Please also include the names and phone numbers of three (3) references from this list of past clients who the UIU Director can contact for feedback regarding the Consultant’s performance and final work products.

2. Work Plan

The Consultant will submit a Work Plan that describes the work products to be produced for each of the following Tasks: (1) initial and rebuttal testimony, including discovery as necessary; (2) settlement negotiations; and (3) writing and review of documents (i.e., joint proposal, statements of support/opposition, briefs, etc.). The Work Plan will cover the contract period. The Work Plan may be no more than 5 pages in length.

The Work Plan should provide a description, with a reasonable level of detail, of how the Consultant will evaluate the degree to which the Company’s AMI proposal and handling of REV related issues benefits consumers, with a particular emphasis on residential and small business consumers. The Work Plan should identify the Company’s panels, expert witness testimony, and/or exhibits deemed necessary to develop its work products. It should also provide clearly delineated assumptions associated with the Company’s electric rates case as relevant to the UIU’s scope of work.

3. Quotation Sheets

For each Task identified in Section 2 (“Work Plan”) above, submit a Quotation Sheet that describes the Consultant’s estimated (1) number of work hours multiplied by the Consultant’s contract rate; (2) optional Per Diem rates, though they are not anticipated by the UIU; and (3) total cost for that Task. The Quotation Sheets will include the individuals to be assigned, the hourly rate and total cost of each individual, and a Total Cost per the Quotation Sheet per task. Hours listed are estimates for bidding purposes only, and the actual distribution of work hours among individuals is subject to discussions between the UIU and the Consultant; however, the Total Cost per the Quotation Sheet is final. In the event of the need for an on-site expert or rebuttal testimony (though such need is not anticipated), the costs of transportation (including air or ground, as necessary), lodging (including meals), and any Per Diem rates should be shown separately on the Quotation Sheet.

The State of New York’s Per Diem rates can be found at <http://osc.state.ny.us/agencies/travel/travel.htm>. Quotation Sheets can be found attached to this RFQ.
